MEMORANDUM

TO: Roger Blair, Director  
Division of Hazardous Material  
& Waste Management

FROM: Jack A. Wilson, Commissioner  
Bureau of Environmental Protection

DATE: May 20, 1980

This is to reconfirm my conversations with Art Curtis of 5/14/80 regarding the request of Reliance Universal to begin physical cleanup work at the A. L. Taylor site on May 27, 1980, to be preceded on Friday, May 23, by a final review of their schedule and detailed cleanup plans. I am aware that you are expecting a response to your recent letter from Bill Fluhr representing Ford Motor Company. I assume he too will want to begin cleanup operations in the near future. It is my current thinking that cleanup operations by more than one company at a time would be inappropriate in view of work coordination difficulties, safety precautions and the difficulty of assigning responsibility for inadvertant spills. I would be happy to discuss these matters further with you and your staff as you deem appropriate.
